

MEDIA KIT 2026

Kiberno

Visual ambient worlds

A premium visual ambience brand family connecting relaxing interiors, calm animal presence and cinematic space worlds for YouTube, slow living and native brand partnerships.

partners@kiberno.xyz

kiberno.xyz

One calm brand. Three atmospheric channels.

Kiberno is built as a small premium visual studio: long-form ambient scenes that can stay open for hours during focus, sleep, reading, study, rest or a quiet evening at home.

Kiberno Ambient

Fireplaces, rain, cabins, campfires and long-form relaxing video worlds.

Kiberno Animals

Calm animal presence, nature moods and warm premium visual atmosphere.

Kiberno Space Ambient

Deep space ambience, cinematic horizons and quiet cosmic focus worlds.

Early traction across three calm channels.

Combined analytics across Kiberno Ambient, Kiberno Animals and Kiberno Space Ambient. Period: June 7 - July 4, 2026. Early-stage network, already showing recurring viewing and long-session interest.

Recommended positioning today: not a mass-reach media buy, but a premium native placement opportunity across three aligned visual worlds. Brands can choose one channel or a small cross-channel presence depending on category fit.

Quiet visibility inside worlds people keep open.

Native product presence

A mug near a fireplace, a blanket on a cabin sofa, a lantern beside a campfire or a product on a wooden table.

Sponsored visual worlds

A dedicated scene or mood built around a brand-relevant atmosphere without interrupting the calm viewing experience.

Cross-channel fit

Ambient for home and comfort, Animals for nature and family-safe warmth, Space for tech, learning and deep focus.

Contact

For selected brand partnerships, native visual integrations, media requests or creative opportunities, contact Kiberno by email.
